McKENNEY'S COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores Rheumatism, Swelling of the Feet and Limbs Swelling of the Breasts or Sore Throat Chronic Eruptions of the Skin and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains Stiff Neck Chilblains or Chapped hands, Sore or Inflamed Breast Weakness or Pains in the Stomach Piles Corns Warts and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public we are aware that we labor under no small disadvantage amidst the multitude of All Healing Ointments and Panaceas that are now advertised as the "*most effectual* and *certain cures* for all diseases indiscriminately, to which man or animals are subject

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not as much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that it, forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press*, or the bought certificates" of individuals and shall make use of them only so far as they have been or hereafter may be entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone will decide upon its real virtues and medicinal properties To say less were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates —

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success, I applied some Salve obtained of Mr A M McKenney and continued its application until I had used six bottles which entirely cured me, and I have had no return of the disease since I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year and having tried various means to effect a cure without success which cost me about forty dollars, I bought 14 oz of JONATH W McKENNEY'S SALVE which effected an entire cure in less than two months SIMEON MARSTON

Gray, May 11 1846

BANGOR, June 5, 1846

Mr McKenney —In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction, that it was an invaluable article I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle, and found it equally beneficial It can truly be called the All-Healing Salve

John S. Sayward.—Editor.

TUESDAY, MAY 8, 1849.

The editor of the Jeffersonian in his last number has put forth a somewhat singular paragraph relative to Banks But what seems very singular to us is that the Jeffersonian should regret that Gen Jackson is not upon the earth to see to the State banks A call for Gen Jackson in connection with the existence of State banks betrays a most unwarrantable disregard of the political history of the country, and of the administration of Gen Jackson in particular It was the policy of Gen Jackson to involve the subject of the finances and currency of the country within the circle of the executive influence, and with this alone he called attention to the charter of a U S Bank upon principles which he approved Failing in this and after his rupture with the old Bank and his veto message, he went straight ahead against any U S Bank, but as straight in favor of the creation and use of State Banks, and meant to prove their superiority over any U S Bank He placed the government deposits in State banks, he encouraged them to move forward and under his lead more of them were created than ever before within the same space of time It was first rate democracy to have State Banks and Democrats of the first water in Maine could have a bank by asking for it, while charters were refused to Whigs

The Jackson hobby of State Banks was driven so fierce ly that the panting, breathless creature under the whip and spur of the old General and his friends, barely succeeded in running through his administration, and burst up very soon after Mr Van Buren took the reins. Really what would our neighbor have the Gen do but renew his connection with this State Bank hobby which to him must be the most mortifying of any in the whole course of his political life and which he deeply regretted?

Our neighbor should attend to posting up a little better in matters of political history

☞The Washington Whig gives a very pleasant account of the visit of the Baker Family of vocalists to the family of the President a short time since This family is from the Granite State and are among the most charming vocalists in the land,

On the occasion of their visit, the President and lady, Col Bliss and lady, with some invited guests, were present The songs 'Death of Washington, 'Old Granite Mountain State, New England, Happiest time is now, were performed in their best style, and told with effect upon the distinguished listeners

A correspondent of the Whig declares that never since the erection of the Monroe itself was there ever a scene of purer hospitality, or more unsophisticated friendly reception manifested

The Old Hero conquers all who approach him his enemies with the sword, his countrymen with his natural kindness His family partake of his noble nature—and gracious expression bids welcome to all

His son in law Col Bliss, deserves his old *sobriquet, perfect Bliss* his manners and those of his Lady are the admiration of visitors—they are easy and natural, and make all feel that their father's house is the American's homestead whilst in it

The Law of the Hens.

It is rather difficult among neighbors who are all good natured and who wish to do about right to determine what they ought to do when annoyed by hens The garden may be nicely made the edges of beds even, and the seed placed in straight rows in a finely pulverized soil, when in comes a flock of them from a neighboring inclosure and scratch and kick up the garden in horrible confusion What shall be done in such a case? The best answer we can give, is to state the law or rule as agreed to in a neighborhood in this city where about all the dwellers keep hens

On the first appearance of the hens in the garden notice shall be given the owner and he requested to shut them up On their appearing again on another day that they be killed and thrown into the inclosure of their owner On all subsequent visits for the season, they may be killed and eaten

It is moved and seconded, that this rule be adopted throughout the city—if that is your minds please say Aye The Ayes have it

May Training

The Fire Department had a grand time at their annual drill yesterday The weather was delightful, and the turn out, with the regular department was quite large and spirited In addition, No 2 had a large and noble company of reserved firemen who were out with great strength for a little of the fancy in the old fashioned good natured style No 5 appeared with the youngest smartest great team of little colts that was ever seen They did race like new ones—The tests to which the engines were put were quite satisfactory, we believe to all, and to all very creditable We are not prepared to enter into particulars and where all do so well it is best, perhaps, not to particularize

☞Mr Brockmuller offers at auction to day a great variety of Plants raised by him in his Green House The auction will be held by the popular salesman Mr Moody at No ——— street

Weeping over the Loss of Office.

The loco press, from the Washington Union downward, are shedding tears and uttering groans on account of the loss of office on the part of some of their partizans They seem to think that they have a prescriptive right to the offices, and that violence is done to the government if they are deprived of such distinction—When their party is in power, they claim the right to hold the offices by the might and majesty of their numerical strength—democracy of numbers, and when the [illegible] come into power they demand the [illegible] of offices in their hands because they are in possession

We think it may be well to refresh the minds of these leaders, of the doctrine, as held and practiced under the administration of Gen Jackson For their enlightenment and comfort just at this time, we beg of them to read, and apply the following paragraphs taken from the Washington Telegraph of 1829, the then organ of the Jackson administration —

From the Washington Telegraph, May 16, 1829

In the attention to personal complaint of proscription removals, the main and only point that can or ought to have the smallest weight is altogether lost sight of The business of the public cannot be properly and efficiently performed unless there be full and unlimited confidence in all the Officers of the Government, as well as genuine and cordial co operation by every individual of the Departments It is, we admit, frequently an unpleasant, but it is still the plain and obvious duty of those officers to displace many persons to whom loss of situation may be a hardship, and to substitute in their room others in whom that personal and political confidence so absolutely necessary for the due administration of public affairs may be safely and properly reposed Every one knows when he accepts an office, the tenure by which it is to be held, and no one can fairly complain of an ejectment when his time has expired, or his services are deemed useless But least of all can the friends of the Constitution complain when the servants of the people do for them, in the promotion of public business, what *the People themselves call for their masters*

[From the Washington Telegraph May 30 1829]

We have seen them (the Opposition) approve as the most proper and becoming thing on earth the right of the Government to lavish away public money in electioneering excursions, and defend as matters perfectly consistent with the purity of elections and the freedom of our republican institutions, the employment of the direct influence officially possessed by the Administration to secure the return of the candidates favorable to its continuance They have deplored the loss the country would sustain in consequence of the People discarding the chief actors in those nefarious proceedings, and now prolong the clamor because the smaller abettors *are sent after their masters* Nothing in their new creed is held so sacred as the principle of immunity for past political sins, and perfect toleration for those to come With them it is a most scandalous part of the conduct of the present administration to refuse to entrust the transaction of its business to the very persons whose interest and the promotion of whose party and principles would be best answered by speeding its due advancement, but to withdraw confidence from faithless, traitorous servants—from those whose only merits, in the eyes of their late employers, were sycophantic subserviency and unbounding devotion to a worthless faction—is a climax of atrocity at which their individual gorges rise in abhorrence and their uncorrupted hearts beat with the most virtuous indignation!

[From the same paper of the same date]

The changes that it has been found necessary to make in public offices has given the Coalition printe an opportunity to discharge some venom and cry out "Proscription!" But the one is innocuous, and the other passes like the idle wind No man was silly enough to suppose that the most unprincipled among the tools and agents of the defeated faction, *the calumniators of the President and the slanderers of the People who supported him should be continued their servants, paid out of their pockets, and entrusted with the management of their affairs* When the People decided that there should be a change they meant that it should be *thorough and complete*, nor did they ever contemplate, while *they removed the principal offenders* from their places of trust, that confidence should be continued to those, who, though less in the public eye, had been the first to step out of their places to oppose the public voice, and turn the very power and influence derived from their situations, held from the people against them and their dearest wishes

[From the same paper of July 4 1829]

Mr Kendall was reluctant to dismiss Mr Bell because he understood that he had an amiable and dependent family, but in the discharge of his public duty, Mr K cannot yield to his private sympathies The worst of all possible systems of *pensioning* is that which seeks out the relations of men in office who are unable to earn an ordinary subsistence, and assigns them to duty which they are incompetent to discharge, that they may, *under pretext of public service, live at the public expense*

Highly Interesting Correspondence.

Letter from the Lady of Sir John Franklin to the President of the United States

Sir I address myself to you as the head of a great nation, whose power to help me I cannot doubt, and in whose disposition to do so I have a confidence which I trust you will not deem presumptuous

I then recapitulating the facts which induced the British Government to offer the reward of £20 000 for the discovery of her husband's expedition she says

To the American whalers, both of the Atlantic and Pacific I look with more hope as competitors for the prize, (£20,000) being well aware of their numbers and strength, their thorough equipment, and the bold spirit of enterprise which animates their crews But I venture to look even beyond these I am not without hope that you will deem it not unworthy of a great and kindred nation to take up the cause of humanity, which I plead in a national spirit, and thus generally make it your own

I must have in gratitude adduce the example of the Imperial Russian Government, which, as I am led to hope by his excellency the Russian Ambassador in London, who forwarded a memorial on the subject, will send out exploring parties this summer from the Asiatic side of Behring's Straits, northwards, in search of the lost vessels It would be a noble spectacle to the world if three great nations, possessed of the widest empires on the face of the globe, were thus to unite their efforts in the truly Christian work of saving their perishing fellow men from destruction

It is not for me to suggest the mode in which such benevolent efforts might best be made I will only say, however, that if the conceptions of my own mind, to which I do not venture to give utterance, were realized, and that in the noble competition which followed American seamen had the good fortune to wrest from us the glory as might be the case, of solving the problem of the unfound passage, or the still greater glory of saving our adventurous navigators from a lingering fate which the mind sickens to dwell on, though should in either case regret that it was not my own brave countrymen in those seas whose devotion was thus rewarded, yet should I rejoice that it was to America we owed our restored happiness, and should be forever bound to her by [illegible] gratitude

I am not without some misgivings while I thus address you The intense anxieties of a wife and of a daughter may have led me to press too earnestly on your notice the trial under which we are suffering, (yet not we only, but hundreds of others,) and to presume too much on the sympathy which we are assured is felt beyond the limits of our own land Yet, if you deem this to be the case, you will still find, I am sure, even in that personal intensity of feeling, an excuse for the fearlessness with which I have thrown myself on your generosity, and will pardon he homage I thus pay to your own high character, and to that of the people over whom you have the high distinction to preside.

I have the honor to be, sir, with great respect your obedient servant,

JANE FRANKLIN

Answer by the Secretary of State of the United States to the above Letter

DEPARTMENT OF STATE
WASHINGTON, April 25, 1849

MADAM —Your letter to the President of the United States, dated April 4, 1849 has been received by him, and he has instructed me to make to you the following reply —

The appeal made, in the letter with which you have honored him, to such as would strongly enlist the sympathy of the rulers and the people of any portion of the civilized world

To the citizens of the United States, who share so largely in the emotions which the public mind of your own country the name of Sir John Franklin has been endeared by his heroic virtues, and the sufferings and sacrifices which he has encountered for the benefit of mankind The appeal of his wife and daughter in their distress has been borne across the waters, making the assistance of a kindred people to save the brave men who embarked in his unfortunate expedition and the people of the United States who have watched with the deepest interest that hazardous enterprise, will now respond to that appeal by the expression of their united wishes that every proper effort may be made by this government for the rescue of yours husband and his companions

To accomplish the object you have in view the attention of the American navigators and especially of our whalers, will be immediately invoked All the information in the possession of the government, to enable them to aid in discovering the missing ships, relieving their crews, and restoring them to their families, shall be spread far and wide among our people, and all that the executive government of the United States in the exercise of its constitutional powers can effect to meet this requisition on American enterprise skill and bravery, will be promptly undertaken

The hearts of the American people will be deeply touched by your eloquent address to their Chief Magistrate, and they will join with you in an earnest prayer to Him whose spirit is on the waters, that your husband and his companions may yet be restored to their country and friends

I have the honor to be your Ladyship's friend and obedient servant,

JOHN M CLAYTON

LADY JANE FRANKLIN, Bedford Place, London

Interesting Interview with the President.

A Washington correspondent of the Newark Advertiser writing under date of 30th ult, gives the following account of an interesting interview with the President

"This morning a delegation from the American Bible Society to the Washington City Society, called upon the President of the United States, and an interview took place of an exceedingly interesting character The delegation consisting of the Rev S I Prime, Secretary of the American Bible Society, and the Rev W P Strickland of Ohio were introduced by Mr Penrose and Mr Miller of the Treasury Department and were received by the President in his Cabinet chamber with great cordiality and kindness

Mr Prime remarked to him that the friends of the Bible had been exceedingly gratified to know that he held the word of God in high esteem, that he had publicly expressed his reverence for its truths and they cherished the hope that the Government of this country would always be administered consistently with its principles Gen Taylor replied

"The Bible is the best of books, and I wish it were in the hands of every one It is indispensable to the safty and permanence of our institutions, a free government cannot exist without religion, and morals, and there cannot be morals without religion, nor religion without a Bible Especially should the Bible be placed in the hands of the young It is the best school book in the world I can remember what I learned when a child far better than what I read now and I would that all our people were brought up under the influence of that holy book You are engaged in a good cause and I wish you great success

After free and very pleasant conversation with the President on general topics, the delegation withdrew

Retrenchment.

An act was passed at the late session of Congress regulating the business of collecting the revenue, in certain particulars, and among other things, limiting the expenses of collection from and after the 30th of June next, to $1,560 000 per annum These expenses have heretofore exceeded two millions of dollars to accomplish the required reduction, therefore rigid economy must be practised, to which end a circular from the Treasury Department is issued to the various Collectors, the mandate of which is in these words "To this end I request that you will promptly furnish to this office a list of all the persons in any way connected with the Custom at your port, designating the dates of their original appointment, and the rate of compensation received by them, together with a description of the nature of the services rendered by each, and a statement of the reduction that can be made, and the manner in which the same can be effected with a due regard to the public interest

The Value of Cold Water.

The Louisville Courier of the 24th April says —"We are much gratified in being able to state that Judge McKinley, the distinguished jurist of the Supreme Court of the United States, after having his vision so seriously impaired for fifty two years that he could not see without glasses has recovered his sight so perfectly, that he is now able to read without glasses For half a century this faculty was so seriously impaired that without glasses he was almost blind, and the recovery of his constitutional health by which the sight has been reinvigorated Judge McKinley very properly ascribes to the daily use of cold water on the head and surface of the body Of the importance of the use of cold water in maintaining and restoring health no one who has ever tried it can entertain a doubt and we refer to Judge McKinley's gratifying success in the restoration of his vision from its long sleep, for the purpose of encouraging other invalids to resort to this cheap and powerful mode of medication"

Brownlow Assassinated.

RUTHERFORDTON, (N C) April 25th

A gentleman was in our office on Monday and informed us that he had received a letter from a friend residing near Jonesboro stating that W G Brownlow, editor of the Jonesboro Whig has been assassinated in the street by a man by the name of Ryland—that Ryland struck him on the back of the head, fracturing the skull in such a manner that three pieces of the bone came out We give the report as we received it, and see no reason to doubt its correctness —Charleston Courier, 3d

When Scented Violets op'd their Laughing Eyes.

BY MRS MARY E WHITAKER

When scented violets op'd their laughing eyes,
And purple daisies flower'd beneath the skies,—
The spring like odian of soft and golden hue
Another low ret bloom'd before my view,
Whose air get form and eye of purest light,
And rosebud lip and smile of celestial bright
Stem'd wose from worlds of innocence and bliss,—
Two gentle and too seraph like for this
But mournful grows my heart fair child, for thee,
And shadows rise in dim futurity
Earth is too cold and sad for one so dear,
Thou wingless angel wandering from thy sphere
I would not see the earth stain mar thy spotless mind—
I would not have thee hear one word unkind,—
O, I would ever shield, sweet babe! thy life
From slander's poisonous breath, and care and strife,
I would that life one rosy spring might prove,
And naught approach thy steps save truth and love
Vain wish! If span'd thou art thro' coming years
Man a doom is thine, add is to thine with tears!
My lovely infant! thou dost slumber now,
With dimpling cheek and calmness on thy brow,
Unconscious all of what the world may be,
A strange and wild ring place perchance to thee
Now hope awakes within my saddened heart,
And glowing visions into being start.
I see thee beauty crown'd and genius blest,
Rank nobly with earth's greatest, first and best
Thy limbs are feeble yet, thy hird like voice is weak,
Bland is thy face and eloquently meek,
Thy little velves hand is soft and fair,
And rich the hue of thy bright Saxon hair,
Is early death for thee, beloved one?
Babes, young as thou, sleep calm beneath the stone,
And in the realms of everlasting light
Are cherub children, beautiful and bright
Lo! more than mortals lovely, blest they stand,
Amid the flow'rs of heaven,—that infant band!
Oh! I should weep my love, but still my sighs,
And tearful yieldings, angel, to the skies!

Holden's Alterative and TONIC MIXTURE,

Is the best combination known for changing the unhealthy secretions of the Stomach and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good digestion perfect such head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubles of children supposed to arise from worms are caused by a deranged state of the stomach and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient, and cannot in any case do harm

Home Testimony

We, the undersigned have ourselves or in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city and have found it to give more general satisfaction than any article I have sold for the purposes for which it is recommended and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident could not be despised ALBERT EMERSON

Please read the following certificate of a highly respectable and aged gentleman

RINDGE, N H April 1, 1848

To all whom it may concern

I the undersigned do hereby certify, that I was acquainted with the late Dr Stephen Jewett from my childhood up to the time of his death and having been his nearest neighbor can testify to his medical skill and knowledge of Bitters with hundreds of others now living, and that in the year 1804 I was afflicted with jaundice palpitation of the heart pain in the side and general debility, so as to be *unable to attend to any business* and being a neighbor of the late Dr Stephen Jewett I had recourse to his far famed *Bitters* and *Plaster* and by their use was permanently cured. Since the above named date I have used Dr Jewett's medicines with equally good effect as prepared by Stephen Jewett son of the late Dr Stephen Jewett of Rindge N H and I cheerfully recommend them to the public as safe and invaluable medicines—and being composed entirely of vegetables I think them far better suited to the diseases of our climate than used ones composed of minerals or foreign nostrums Try them, and judge from fact and experience I consider Dr Stephen Jewett's Strengthening Plaster far superior to any external application for the purposes for which it is recommended, of any that I have ever known

EBENEZER BLAKE

DR STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters, acting as they do upon the Stomach Liver and Bowels removing all the morbid secretions thereby purifying the blood and invigorating the digestive organs not only cure diseases that already exist, but they also fortify the system against all attacks of disease It is a common remark among those who have used Dr Jewett's Bitters that they have but little fear of being sick The remark is strictly true, for while the stomach and bowels are kept in a good condition and the blood pure all the great predisposing causes are removed and the whole system is fortified against those morbific influences, which under less favorable circumstances would have engendered perhaps fatal disease

In order that the public may know that they are offered a truly excellent article we append the following certificate which may be seen with numerous others in their original by calling on the proprietor

BOSTON May 16 1848

To all whom it may concern —This may certify that I have been for years troubled with a scrofulous humor which has been very troublesome and was fast undermining my health and had severe pains in the back loss of appetite, langour and general debility

A short time since I commenced taking Dr Jewett's Health Restoring Bitters and in a very short time my humors and pains left me my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett's Health Restoring Bitters

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases of the Lungs and Chest Why is this great sacrifice of human life? How happens it that the brightest intellects, of the highest promise the hope and support of declining years are smitten down in early life? Why is it that so many families have been made desolate by that fell destroyer Consumption? And how has present such an appalling and lovely children are cut down every year by those dread diseases, the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you those diseases can be cured—if taken in season

It is true these diseases can be cured with almost absolute certainty—if taken in season Every body should be aware of this fact and provide themselves with Dr Jewett's Pulmonary Elixer

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates

WINCHENDON Mass March 10 1848

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally, to inform you all who may have been afflicted as I have that I have been entirely cured of a severe and long continued cough by one bottle of your Pulmonary Elixer—For months I have been a great sufferer I had pain in my left side sore throat, constant cough, and raised a good deal of bad looking matter My strength was gone and my flesh was wasting away I took many things without benefit and was steadily getting worse, till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all who are troubled with coughs

James Cunningham Esq one of the assistants in the Lunatic Asylum Blackwell's Island and a gentleman spoken of in the following letter

JAMES CUNNINGHAM

FITS FITS FITS

Dr Townsend having used your Sarsaparilla in cases of fits, I cheerfully recommend it as the best medicine I ever used and especially to Farmers and Mechanics

Fordham August 13 1847

Dr Townsend—Dear Sir I believe all the girls in town of a certain age have been afflicted with Fits we tried almost every thing for her but with no success at last although we could find no recommendation in your circulars cases like hers we thought as she was in very delicate health we would give her a trial of your Sarsaparilla and are very glad we did for I am only rejoiced at her strength but she has had no return of the Fits to our great pleasure and surprise She is feeling hearty & rugged and her reply for which we feel grateful Yours respectfully

JOHN BUTLER Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a powerful and speedy cure for *Leucorrhea* or Consumption Bearing Down Pain Unnatural or Falling of the Womb, Obstructions Pale Leucorrhea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the fault of incident cause of disease produced by irregularity illness, or neglect Nothing can be more surprising than its invigorating effects on the human frame Persons all weak and pale made from taking it at once to comparative robust health and strength and under its influence rapidly recruit vigor and the perfect bloom of health Those who have been long confined to their beds with female weakness and debility will find in this medicine a sure and speedy remedy

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, *The turn of life* should neglect to take it as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* and is also valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system renews permanently the natural energies—by removing the impurities of the body but so far stimulating as to produce subsequent relapses to—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficacious medicine for purifying the system and relieving the sufferings at one and upon child birth ever discovered It strengthens both the mother and child prevents pain and disease increases and enriches the food—those who have used it think it indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—as Costiveness Cramps Swelling of the Feet Despondency Heartburn Vomiting Pain in the Back and Loins False Pains Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great business of this medicine is it is always safe, and the most delicate can use it most successfully very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use when applied to the face very soon spoil it of its beauty They close the pores of the skin and check the circulation, which when nature is not thwarted by disease or powder, or the skin is formed by the alkalines used in soaps, countries its own production to the human face divine," as well as is the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the blood or the coloring of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire but none can describe This beauty is the offspring of nature—not of *powder or soap* If there is not a free and healthy circulation there is no beauty If the lady is pale as driven snow, if she paint and use cosmetics, and the blood is thick, cold and impure she is not beautiful If she be brown or yellow and there is pure and active blood it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined to close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain the lustre of step, buoyant spirits, sparkling eyes, and beautiful dumpling one, they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied, are delighted Ladies of every station crowd our office daily,

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably cut off their stuff a great remedy for females, &c, and have copied our bills and circulars which refer to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not A number of these adulterations, Pills, &c, are injurious to females, as they aggravate disease, and sometimes destroy life

MENSEFUL CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house in succession

THREE CHILDREN.

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores I have taken only four bottles it took them away for which I feel myself under great obligation Yrs respectfully,

ISAAC W CRAIN 106 Wooster st

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts Elixirs, Bitters Extracts of Yellow Dock &c They generally put it up in the same shaped bottles, and soon of them have stole and copied our advertisements,—they are worthless imitations and should be avoided

A Derangement of the Nervous System.

Of late the Medical Faculty have begun to see and acknowledge the great value of Galvanism in the treatment of Nervous Diseases and while the Galvanic Battery and Magnetic Fluid are being extensively employed by the most scientific and skilful physicians in Europe and America, they have been introduced into this country by ignorant pretenders, who have brought them into disrepute by their unskilful application

Dr Christie's Galvanic Curatives,

combine all the efficacy of the Galvanic Battery and Magnetic Fluid, without the inconvenience of either, by their application in the form of a Belt, which can be worn with perfect ease and comfort by any person, and will be found invaluable in all cases of frequent expenditure of the nervous energy, and in all cases where the system has been debilitated by dissipation, or enfeebled by disease

Dr Christie's Galvanic Curatives,

consist of a belt of sufficient length to encircle the body, and is worn next the skin, and by its action upon the nervous system, and the blood, which it purifies and invigorates, it will restore the sufferer to perfect health, when all other means have failed

To illustrate the use of the GALVANIC BELT suppose the case of a person afflicted with the worst of civilization DYSPEPSIA or one of the kindred diseases or Nervous Disorder In ordinary cases the organs are taken back by their action on the muscular and muscles of the stomach afford employment, which leaves the patient in the lowest state of health Injured faculties after the action the system is restored Now compare this with the effects resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer and in the course of an hour and a half to the belt the body is under the Magnetic Fluid and in a short period the nervous life principle will receive the healthful elements of the Belt, and cause a healthy circulation which will result in the most active and thence back again to the seat of disease keeping up a continuous circulation of pure blood throughout the system Thus the nervous energies are permanently restored, the Rheumatism or Dyspepsia has never returned the Rheumatism once in a while visits me but not so severely and is easily arrested and is manifestly being driven from its hold upon my system and my Bronchial affection is entirely cured Such is the wonderful and happy results of the experiment

I have recommended the BELT and FLUID in many who have been likewise suffering from nervous affections They have tried them WITH MARVELLOUS RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,

ROBERT W LAWDIS.

☞ Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

☞ No trouble or inconvenience attends the use of DR CHRISTIE'S GALVANIC ARTICLES and they may be worn by the most feeble and delicate with perfect ease and safety In many cases the sensation attending their use is highly pleasant and agreeable They can be sent to any part of the country
